

AMVAC®

A NEW ANSWER TO TERMITES, ANTS AND OTHER PESTS CONSUMERS DETEST.

PREMIUM CONTROL WITHOUT THE PREMIUM PRICE.

That's NAVIGATOR® SC. Armed with fipronil — the proven active ingredient in pest control — NAVIGATOR SC helps you address common pests including termites, ants, cockroaches, silverfish and other listed pests. Maximize your customer satisfaction. Prevent costly callbacks. And stand out from a swarm of competitors.

DEPENDABLE CONTROL FOR PEST PROFESSIONALS.

With Exterior Perimeter/Localized Interior (EP/LI) applications, NAVIGATOR SC controls termites and provides residual control for protection against future infestations. After termites pass through the treatment area, they transfer the non-repellent active ingredient, fipronil, back to the nest where it spreads throughout the colony. The tried and true formulation of NAVIGATOR SC makes it an ideal tool for pest management professionals.

AVAILABLE IN CONVENIENT SIZES.

2.5g/l 2/cs | 78oz | 20oz
