

# A NEW OPTION FOR AN OLD RELIABLE.

New PREVIA® fungicide from AMVAC® offers an excellent value on chlorothalonil (FRAC group M5), a standard in broad-spectrum control. A contact fungicide used in preventive applications for control of listed turf diseases, PREVIA fungicide joins the AMVAC Four-Season Solutions™ portfolio of fungicides as an effective foundation to your rotation program.

## PREVIA FUNGICIDE IS EFFECTIVE ON LISTED TURF DISEASES INCLUDING:

- Anthracnose
- Brown Patch
- Copper Spot
- Dollar Spot
- Leaf Spot
- Snow Mold

*Refer to the label for a full list of turf diseases controlled by PREVIA fungicide.*

## PREVIA FUNGICIDE CAN BE APPLIED TO BOTH COOL - AND WARM-SEASON TURFGRASSES, INCLUDING:

- Bentgrasses
- Bluegrasses
- Fescues
- Ryegrasses
- Bermudagrass
- Kikuyugrass
- Seashore Paspalum
- St. Augustinegrass
- Zoysiagrass

PREVIA fungicide is a contact fungicide that can be applied to tees, greens, fairways and roughs. Applications that use sufficient water volume to provide thorough and uniform coverage of turfgrass foliage provide the most consistently effective disease control. When you want broad-spectrum control at a great value, PREVIA fungicide is the answer. Contact your AMVAC distributor today, or call AMVAC at 1-888-GO AMVAC (1-888-462-6822) and visit [www.AMVAC-Chemical.com](http://www.AMVAC-Chemical.com).

Important: Always read and follow label instruction. Some products may not be registered for sale or use in all states or counties. PREVIA fungicide is EPA registered. Please check with your state agency responsible for pesticide registration to ensure registration status.
