

A DOLLAR SPOT PROGRAM WITH VALUE.

With a diversity of FRAC groups, AMVAC®'s dollar spot rotation program is designed to give you effective resistance management and cost-effective control against troublesome dollar spot. Just another way AMVAC fungicides have you covered four seasons of the year. Developed in accordance with best management practices:

- Tank-mixing or alternating fungicides with different modes of action and proven efficacy against the target disease reduces the potential for resistance to develop and improves disease control.
- This program is a comprehensive disease management program for golf courses.

AMVAC DOLLAR SPOT PROGRAM FOR TEES AND GREENS
